Trapped shades

Una polvere finemente macinata di elementi presenti in natura quali gesso, silicati, minerali che, a contatto con l'acqua si modifica, pur mantenendo e manifestando sulla propria superficie la sua genesi. Tante le sfumature intrappolate in un materiale che oggi è diventato il simbolo per eccellenza della modernità, visibile sia nei contesti urbani che come soluzione estetica per progetti da interno.

---

This finely ground mixture of natural elements, such as gypsum, silicates and minerals is transformed on contact with water, but maintains and reveals its origins on the surface. There are so many different shades trapped in this material that, today, it has become a symbol for modern excellence and is deliberately exposed in urban contexts as an element of indoor design.
